LOCOTRANSSPED - WE DELIVER YOUR SUCESS

The transport & spedition company LOCOTRANSSPED was established in 2011. It offers services of refrigerator and flatbed shipment, locally and internationally.

The range of our services covers:

- professional organization of goods transport
- preparing specific transport routes according to the Client's needs logistic advisory
- transport dedicated to individual Clients
- ongoing after-sales care

Apart from that LOCOTRANSSPED guarantees our Clients:

- an attendant for each transport, at your disposal 24h/day
- specialized drivers speaking foreign languages
- 24h monitoring of the vehicle along with your load and constant contact with the driver on the phone

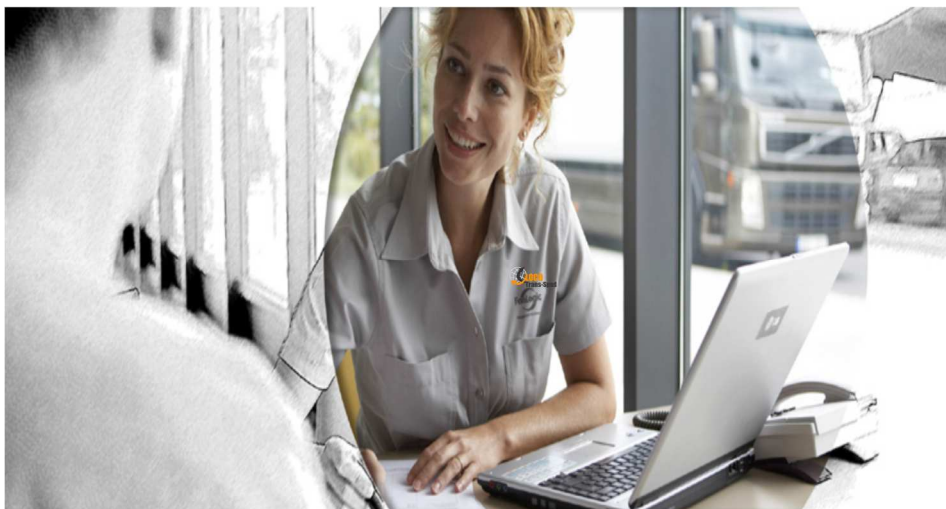

***Our standard is an insurance for 300.000 Euro
for every incident***

- possibility of negotiating payment deadlines for services performed

LOCOTRANSSPED is a licensed carrier with professional qualifications confirmed by certificates from the Institute of Car Transport.

Our standard is an OCS insurance extended by a social responsibility insurance of the contracted carrier (300.000 Euro for every incident). The company adjusts the range of services to individual customer needs, with a high level of quality guaranteed. The most important value of LOCOTRANSSPED is the satisfaction of our customers.

Your reliable partner:

- *experienced specialist staff*
- *modern fleet*
- *insurance for 300.000 Euro*
- *constant care of a dedicated attendant.*

Among our customers there are both international companies and small enterprises from all over Europe.

Your carrier in Europe

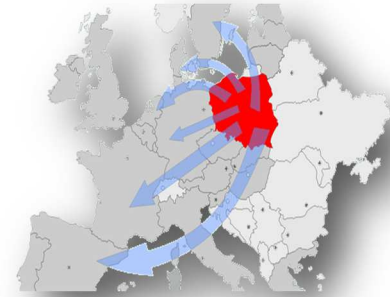

Refrigerator shipments

Our experience in refrigerator shipments and just the right staff will manage to deliver anything on time. Hundreds of refrigerator transports completed guarantee the right quality and keeping proper temperature within the whole supply chain. Our refrigerator vehicles have special temperature registering equipment. We can include a temperatur printout from each transport on Your demand. We offer refrigerator shipments in temperatures from -25°C do $+25^{\circ}\text{C}$.

Our Clients have refrigerating sets at their disposal, which have the length of 13,6m and capacity of 22,5 tons that can take up to 33epal. In case of a smaller amount of goods we can organiza transport for You in a temperature controlled refrigerator bus (8ep.10epal.)

LOCOTRANSSPED organizes shipments of loads all over Europe, no matter where Your company is located.

Your *GOODS* in *GOOD* hands!

***Flatbed transport of loads
up to 24 tons.***

The range of Your company's services can grow, along with the number and capacity of loads to be shipped. You are probably looking for reliable transport that will meet all Your needs, deliver your goods anywhere in time and intact - that's why we offer vehicles equipped with tilt-type and curtain-type trailers that are 13,6m long (33epal) that can carry up to 24 tons of load.

Why us?

Transport and storekeeping of materials and products can form a large part of Your company's expenses. Cooperation with a specialized logistics operator can improve the company's position in the market through:

Greater efficiency:

- **Cost interchangeability** - taking care of logistics by Your company itself generates constant costs an opposite of a situation when a company uses external logistic services, which enables cost efficiency
- **smaller investments in logistics base** - (warehouses, vehicles base, space for employees) improve the company's flexibility and efficiency.

Higher quality:

- **higher quality of market services and time saving** - faster deliveries, more customer flexibility, professional goods management, detailed administration.
- **modern logistic solutions** - in accordance with current market
