## NAVAL TECHNOLOGIES FOR DEFENCE AND SECURITY

The 9th edition of the NATCON Science and Technology Conference, along with the parallel BALT-MILITARY-EXPO Baltic Military Fair, is the most important event in the Baltic Sea Region dedicated to naval technologies used to increase national defence capabilities and ensure national security.

The main objective of the Conference is to build an international exchange platform for naval know-how to enable a dialogue between users, industry and R&D centres. Thanks to its high position in the conference calendar on naval defence and security, the conference increases its reach with every edition.

In 2018 NATCON participants of the Conference included: representatives of the National Security Bureau (BBN) with Minister Paweł Słoch at the forefront, the Ministry of Finance represented by the Undersecretary of State Stanisław Cybulski, Chairman of the Parliamentary Defense Committee Michał Jach, Naval Inspector RAdm Jarosław Ziemiański, Chief of Swedish Navy RAdm Jens Gunnar Peter Nykvist, Commander of the Maritime Operations Center - Maritime Component Command RAdm Krzysztof Jaworski, Commander of the 8th Coast Defense Flotilla RAdm Krzysztof Zdonek, Acting Commander of the 3rd Ship Flotilla Cdr Wojciech Sowa, Deputy Commander of Territorial Forces Col. Andrzej Dębczak, Deputy Commander of the Maritime Unit of the Boarder Guard Cdr BG Wojciech Heninborch, Chief of the Navy's Hydrographic Office Cdr Andrzej Kowalski, representatives of science and industry, with the Polish Armaments Group (PGZ), represented by the Director of the Department of Innovation and Technological Development Robert Kudelski, on top, as well as representatives of the organizers and co-organizers.
